PROFESSIONAL SUMMARY

I am a full stack developer. Motivated to Create amazing responsive new applications. Always excited to collaborate with other team members on new ideas.

EDUCATION

ASSOCIATES DEGREE IN ARCHITECTURE • 2017 COMMUNITY COLLEGE OF DENVER

Graduated with a 4.9GPA and completing and internship with an architecture firm while completing the program.

FULL STACK WEB DEVELOPER • 2018 • DENVER UNIVERSITY

completed the program with a 4.8GPA.

FREE LANCE WORK

- Pairing with a team we completed an application where we help baristas looking for coffee shops where there is more income potential based on tip ratios and geo-location.
- Build an application named recipe matcher where the user enters all the items on their kitchen refrigerator and pantry and then with the push of a button looks at an API link and matches the recipes that they can make with the items the user has in stock.
- Crypto aquarium was a collaborate application created to make crypto currency more interactive and fun by being able to create your portfolio and invest inside a fish tank. Then the user can buy/sell fish accordingly. Users can trade and make money while having fun.
- These projects were accomplished using the following languages: HTML, CSS, Bootstrap, Javascript, JQuery, API's, Handlebars, Github, Node, Express, MySQL, MongoDB, firebase, React

EXPERIENCE

GIS ANALYST • SPATIAL DATA SOLUTIONS • 07-2007 – 04 - PRESENT

- Put together a production team by sharing key knowledge and experiences in managing sensitive data. Allowing entire team to strengthen the production capacity by 300% from the initial start point.
- Reduced margin of error by implementing more accurate and detail QC/QA to the final data enabling to obtain most accurate results possible.
- Shaped multiple sets of macros on third party software to develop an efficient automatic filtered point cloud result.
- Generated a number of geographical maps utilizing elements such as 3D stereo compilation, LIDAR point cloud, and orthophoto imagery concluding with very accurate outcome.
- Translated project information to client's specifications integrating data conversion such as global-mapper, HTML, Auto-CAD and MS application.

OWNER • DISCOVER TRANSPORTATION • 04-2016 – PRESENT

- Keeping current accounts open with our affiliates and primary customers.
- Maintain sells at peak so budget is met at the end of each month.
